Comment text:

I am writing on behalf of my mother and father; [REDACTED] who live at [REDACTED] with regards to a letter they have received in the post about moving their street into Thorney Close & Grindon. My parents have lived in this house 41 years and do not understand why now they should be moved under the Thorney Close & Grindon area when their property is not in the area of Grindon or Thorney Close. Why is this the case? And only for 3 streets and some of Durham road?
The plans that local MP's make for humbledon, plains farm and high Barnes will still effect them so they should be entitled to vote based on what is happening near them not in Thorney close and Grindon where that is no where near their property.
Thank you for taking the time to read my email on behalf of my mother and father and hope their opinions are taking into consideration with this step.
