To The Boundaries Commissioner

Good morning, I wish to make my views known regarding the proposal of the estate I live on being merged with Pennywell and South Hylton I object to this proposal as I totally support Hastings Hill and Grindon being kept with Springwell and Thorney Close.

I strongly agree with the Commission's plan for the areas of Hastings Hill, Grindon, Springwell and also Thorney Close being kept as one ward and to be represented by one set of Councillors.

Reasons for my objections are as follows Reason one. These areas all flow along side of each other, why split them up surely keeping them together and having them represented by one set of councillors is more beneficial to the area.

Reason two. These 4 estates all have the opportunity to share an excellent choice of shops, as well as sharing community groups, excellent green belt areas like Grindon Sandhills, the Barnes park extension but more importantly I believe is the excellent choice of schools which are all within walking distance of each other.

Reason three. These areas all neighbour each other and are all boarded by main roads for example Chester Rd, Durham Rd and also the A19.

Reason four. These areas have great public transport links between the four estates, but more importantly I believe the green belts we share give us an amazing opportunity to get walking, cycling and dog walking.

Please, please keep my estate Hastings Hill with Grindon , Springwell and Thorney Close, it makes sense to keep them all together and be represented by one set of councillors instead of splitting them up.

Yours sincerely
