Comment text:

Related subject: Poynton

We would support the proposal to merge the current 2 wards covering the Poynton and other areas into one ward based upon the Town Council boundaries, with non-Poynton areas merging with other more rural wards.

We recognise that the number of Cheshire East councillors would reduce from the current 4 Cllrs to 3 Cllrs but they would be focussed upon the needs of Poynton Town. The new ward would be much more homogenous covering broadly suburban areas. The 3 Cllrs for the new Poynton ward have a much better clarity of their representation on more suburban issues.

The rural areas of Adlington, Pott Shrigley would be merged into other more rural wards and will be able to gain much more representative support from Cllrs with experience of rural matters.

In summary, we therefore support the current proposals.
