## Comment text:

Personally it's time the whole of Thanet district council be abolished mainly as the offices ecn't get used much now only few staff there other areas of Thanet such as Ramsgate and Broadstairs and Westgate have there own town ctsvouncils except Margate we had enough support for one change of power changed all of this it's all about localism instead of ome area get nothing money shifted to other areas to benefit political parties I wasn't happy with the parliamentary changes as nobody knows how many people actually live in Thanet not forgetting the villages who have parish councils who all work well the money saved would benefit the community we want a town council for margate.
