## Comment text:

I understand that my ward if Garlinge is likely to be merged with the Margate, and Cliftonville ward(s). I strongly object to this change as councillors covering such a large area and supporting the residents and businesses across the area will not be able to better serve their constituents. The several of the current councillors in Westgate and Garlinge are engaging well with their communities but there are some who do nothing with respect to working for their communities. Personally I would rather Garlinge and Westbrook wards merged with Westgate Town Council, as these areas are not Margate, but more associated with the quieter residential areas of the seaside towns and bays between Westgate and Westbrook beach.

Given the ridiculous house building going on in these communities too, lumping Garlinge and Westbrook together with Margate and Cliftonville will not see a fair representation for these wards and community needs.
