**Related subject:** The boundary review

I am concerned some roads that are currently part of the Westgate-on-Sea ward will be moved into the Westbrook/Margate ward. The roads in question are Essex Road, Chester Road, & Queens Road I think they should remain wholly in the Westgate-on-Sea ward as they have always been part of Westgate-on-Sea and are recorded as such in historical records. Westgate-on-Sea has a town council which currently is of benefit to the residents of these roads, Westbrook/Margate does not have a town council to bring improvements to that area, or to question planning applications that may be submitted nearby or larger developments that would have an impact of the residents of these roads. Essex Road, Chester Road and Queens Road should remain in the Westgate-on-Sea Ward in my opinion. I also think it is very confusing when roads have split boundaries, all the roads in question should remain in Westgate-on-Sea
