## Comment text:

**Related subject:** Cliffsend

Cliffsend is rapidly growing in population. There are new housing estates emerging at present and further planning applications have been submitted for more. We have no health clinic or doctors surgery and a high proportion of elderly residents. The bus service has been reduced. I do not agree with merging Cliffsend and Pegwell ward with a larger town or village, unless there are sufficient councillors to serve it. Cliffsend PC serve the 'village' well and work hard to support the residents, but it does require the support of a ward councillor as it is just a small voice in a large choir. If the village is to continue to grow around the very expensive high speed rail station, it will need the service of its own ward councillor.
