Related subject: Birdwell ? Worsbrough

Whilst I appreciate the change in demographics which has caused the proposed changes splitting Birdwell in two seems completely illogical. Issue facing the village will be true for the whole village. It is too small to be considered in two isolated parts. Planning permissions, highway changes, services, schools in the area are vital for the whole village. Instead of these issues being distributed more efficiently across three councillors, what will happen is that now six councillors will need to be involved. If something arises in north Birdwell then I would have to write to the three councillors for Worsbrough AND the councillors for Rockingham. There are clear natural boundaries and natural allegiances (for example the Parish of St Mary's Worsbrough covers the whole of Birdwell and many if they have any allegiance to the CofE then it is to this Church. I hope you will reconsider this change
