Hello,

I am emailing about your proposals regarding altering boundaries in Barnsley.

I am a resident in Birdwell (Coronation Drive) in the area you propose to bundle with Worsborough. I feel that splitting the boundary midway through Birdwell would not best benefit the community here.

As residents of Birdwell our issues closely align with those of the other half of birdwell which would be under another ward, we also use a lot of facilities (recreation ground, supermarkets) which would be under another ward counsellor.

I also think that Worsbrough is quite a large area with its own issues, that we do not really align with as a community and as we would make up such a small part of the new ward, our issues would go ignored.

I think it would negatively affect the community here to split the village in half.

Thanks
