Related subject: Darton West

As someone who lives in Darton West and will be running for councillor here in 2026, whilst campaigning for someone in this ward last time. I strongly believe that removing wilthorpe from the ward is the correct this to do, whilst including higham in the ward. It makes no sense that this isn't already part of Darton West as Higham and dodworth are separated by a motorway so it's easier to split.

Maintaining the current boundary of the ward is acceptable so long as it would end at Redbrook roundabout (Aldi) and include Higham.

It makes little sense representing people that are in wilthorpe which should be old town, when Higham is closer.

Please carefully consider these amendments. I've spoken to many residents from Higham and wilthorpe who all agree the same.
