## Comment text:

**Related subject:** Stainborough

I would like to state my objection to the new Boundary proposal to include Stainborough and Hood Green in a ward with Dodworth and Tankersley.

Stainborough and Hood Green are a small rural community and have very little in common with our neighbours of Dodworth and Tankersley which are urban areas and as such have very different needs.

We have very close links with all the other rural communities, such as Thurgoland, Silkstone Common, Oxspring and Hoylandswaine which remain in the Penistone East ward.

I feel that if we were included within the Dodworth/Tankersley ward our community needs would be overshadowed by the very different needs of their larger urban community and as such would be overruled. Our parish council works very hard for all our residents, a large proportion of which is elderly and as a community we know all our neighbours and look out for them.

I personally have a much closer relationship with Penistone. I visit Penistone several times a week to shop - visit the market and support the small businesses within the town. My doctors and dentist are also located in Penistone.

I feel that Stainborough/Hood Green and much more closely aligned with the other rural communities surrounding Penistone.
