**Related subject:** Birdwell That Is Being Moved Into Worsbrough Ward

Dividing Birdwell into too separate wards is just wrong and cannot possibly work to keep a village united. A councillor in one Ward will not work with the councillor from another Ward to make sure we get the equal amenities as our neighbours which are not affected but live in the same village. Rockingham ward as it stands has a caretaker team which is paid for by 4 individual pots of money that have been collated together to get the best caretaker team ever. By splitting off half the estate, you are taking that caretaker team away from those being removed from the ward as it stands. Which will clearly show because Worsbrough ward councillors do not have the same ideas which we the residents have fought hard and long for with the 3 councillors we have at present. Half the village will be clean and tidy with fantastic clean areas attended to by the caretaker team and the other half will look unkept because the Worsbrough ward councillors at present do not support the idea of the caretaker team. You are taking everything we fought for away from us and I being one of those fighting for a clean united community will definitely be affected by the offensive move.
