Comment text:

Having lived in Eldwick for 80and62 years respectively we are somewhat at a loss as to the reasoning behind the proposed boundary changes which will split our village linking some of us to Baildon. We may be near neighbours geographically but having no public transport links we fear that many people will be deterred from making the journey thereby creating an unbalance in the number of potential voters. Dividing our village for seemingly unnecessary bureaucratic reasons would be a great shame.
