Comment text:

Good morning

It is my understanding that there are renewed suggestions that Eldwick village should be joined with Baildon (Shipley) for the purposes of boundary administration. This is a preposterous and very "left field" suggestion.

Eldwick village has a very definite individual characteristic and profile, forming a strong part of the broader BINGLEY town community. Bingley is our town!

We have no transport links with Baildon, they lie across the huge geographical divide of Baildon Moor. They do their thing, we do ours.

Whilst Eldwick has its own village society, gala, various social and fund raising events. Prince of Wales Park and Park Road/Ferncliffe Road join us to Bingley, by road (bus) and on foot. Whilst Eldwick has a village shop/Post Office, we rely and link to Bingley for our wider shopping, family and work/life transport needs.

Please note my objections to this proposal in the strongest terms.
