## Comment text:

**Related subject:** Bingley

I would like to express concerns with the boundary change in Bingley. The proposed boundary would divide Bingley town along the railway... this would divide the area used generally for commerce (prospesed Bingley west from the area generally which is residential (prop Bingley east) . This is would mean that the residents would not share a representative with the are which they use regularly for retail, leisure, ect. And this also runs the risk of isolating residents in Bingley who live on the west side of the railway line.
