Related subject: The proposed changes to the Eldwick/Bingley and Baildon Wards.

As a resident of Eldwick I strongly object to the changing of the Ward boundaries which may mean a percentage of our lovely small local village being placed under the Baildon Ward. To engross part of our village on another towns boundary would change the spirit and feeling of this tight knit community when there is no need for it to happen. We are not even directly next to Baildon as there is a large moor area between us. We are a proud and small village which prides ourselves in our community spirit, with numerous local events and supporting each other, to have a split in this would be wrong.

I strongly request you keep the boundaries as they are and leave Eldwick in peace, instead of bringing unnecessary change, again.
