Comment text:

Related subject: Eldwick

I live at [REDACTED]. Never before have I heard or read anything as ridiculous as placing boundary lines through a community to split it between Eldwick and Baildon. We have our own war memorial, post office, village hall, playing fields and public houses. To split this area divide a community is preposterously absurd.

Not only that, there is a clear boundary already in place between the two areas of Baildon & Eldwick in the form of a moor road. Whoever dreamt up this proposal is massively out of touch with the thoughts, feelings and opinions of those residents who would be directly affected by this as I haven't spoken with anyone who supports this move. Whoever receives a monthly salary to dream up this bonkers schemes seriously needs an urgent employment capabilities review and redeployment.
