Comment text:

Related subject: Bingley

This proposal makes no sense. You are splitting towns & villages & moving them to other area's that do not have the same outlooks, or requirements.

We should have learnt over recent years how important community spirit is.

These changes would severely damage the area & community of Bingley.

Almost all the changes made by Bradford council have been to the detriment of Bingley but it has not only survived but prospered by its own local commitment & these proposals would seem to finally crush them.
