Comment text:

To the Review officer,

I am writing to express my concern at the proposed changes to ward boundaries which would see part of the Cottingley community move from Bingley Rural Ward into Shipley Ward. I have lived in Cottingley for nearly 20 years and I see this as a decision that would potentially undermine the interests and unity of a strong village community and threaten its identity. This has only just been brought to the attention of many with very little time for us to have a say in the future of our own community.

I implore you to consider how this “boundary shift” will actually affect people on the ground floor who are working hard to build a community in an increasingly divided country. It will not be a good nor popular move and potentially create animosity and divisions that could be avoided.

I trust that you will take the views of those impacted by this proposed change into account and work for the good of the community.

Yours faithfully
