**Related subject:** The Consultation for Local Boundary Commission - Bingley

Hello.

The current proposal appears to split Bingley in two with the boundary being the train line.

I object to this as residents on the opposite side of the train line will have no support should they have issues with the town centre or local park etc.

It looks to make Bingley the only core town in the Bradford District with a boundary running right through the middle of our community.

I most definitely object to splitting Eldwick. Makes no sense to me to have half of Eldwick included in the Baildon ward when we're closer to Bingley.

That's where we shop and school our children.

Thanks for allowing me the opportunity to raise my objections.
