## Comment text:

**Related subject:** Boundary changes

I'm all for making things fairer & more streamlined, but the proposed boundary changes for my area need to be looked at again. Bingley rural is a vast area & the last review I saw was to move denholme into the Keighley section & leave Cottingley still connected to bingley. Having looked at the proposed boundary changes the lines need redrawn as it slices Cottingley in half & causes way too much confusion. Is there not a way to look at moving the boundary towards the nabwood area which is the outskirts of Shipley anyway & have it span round Basildon moor & eldwick
