**Related subject:** Bingley

The community of Lee lane , Cottingley. Which I am part of ,have a close connections to each other and have been involved collectively in various community events on the lane.The new proposals would split our community and those it serves. Neighbours know each other,look after Neighbours when help is required.

I also feel that to split Bingley would be to the detrement for the Bingley residents, reducing the power of the people from Bingley to have a full input into the present Bingley area if split.
