The existing southern boundary of the A1306 should remain and NOT transfer the bungalows, Ocado etc into the Purfleet area. The proposed boundary of A13 may look like a neat line on a map but certainly does not take into consideration how such a proposal could disconnect a community. These are predominantly elderly residents residing in the Purfleet Road bungalows. It is not inclusive and certainly very isolated in reality for those residents. I've never understood why Bramble lane was excluded from the Borough if the council want a strong boundary line and the latest proposal makes no sense either. Not in support of this change
