**Email:** [REDACTED]  
**Postcode:** [REDACTED]  
**Organisation Name:** (Member of the public)

## Comment text:

**Related subject:** Woughton

Move the boundary between H4 and H9 to follow the A5 instead of the railway for parish, ward, and polling. The largest effect of this is that Woughton Parish would include the new development near the Bowl. Woughton Ward would benefit from Fishermead being removed and Ashland added. The east boundary of that ward should follow either the H9 or the canal, not swap between them. the parish boundary should follow the ward boundary on the east side. This makes better use of the natural boundaries and communication routes
