I do not believe the propose boundary reflects the ward. Stamfordham.Road is in the middle Westerhope Village and the proposed boundary splits the village in half. If residents have any issues along Stamfordham Road there would be confusion as to which councillor should be contacted.and deal with the issue in hand The Village has a strong community and wants to stay in the same ward. I do not believe this boundary change reflects the residents wants or the map.of Newcastle and the ward. The boundary as it stands is a natural boundary of the ward and though I understand the wish for a conformity of numbers of residents in each ward the boundaty change does not serve Westerhope Village. I wish for this to be revised.
