**Related subject:** Trimdon ward including the proposals for Stainton and Thornton.

The blue line that designates the boundary line for the new Stainton and Thornton from Trimdon ward and Ayresome ward dominates all the green areas from the house lines .

This is unacceptable ...

The boundary line should run along saffwood beck and blue bell beck thereby giving a recognisable designated line separating the two wards. Also the blue line that has been produced runs along the edge of the start of Newfield village green which was fought for and allocated to us in 2019. This cannot be now removed from our area and handed over to another ward without application to the village green registration committee.

This triangle of village green is utilized by various sporting groups and the entire ward.

It is surrounded on two sides by saffwood beck and blue bell beck saffwood woods foxes woods and honister woods it is then separated by the road and housing on one side at Newfield crescent.

I express great disbelief that this area has been taken out of this ward by the boundary commission

I ask that this is rectified as soon as possible

I also suggest that the blue boundary line remains on the opposite side of the bluebell beck as far down as mandale roundabout for the reason that that area was given to ayresome ward as recompense for the residents to use for activities when the building of the A19 took place as highways took some of their land to enable the A19 to be extended
