Comment text:

Hello,

I am just writing to voice my extreme dissatisfaction at the fact that I could be moved from the nunthorpe ward to the Marton west ward.

Last September myself and my partner decided to buy a house in grey towers village ([REDACTED]). A major contribution to us buying this house was the fact that we would be part of the nunthorpe community- a community that I have been part of my whole life having grown up in my parents house at 7 Barnaby Road. Therefore after being in the house approximately one year and receiving a letter to state that we might now be moved to the marton west ward was a real upset to not only myself but my partner also.

The nunthorpe community provides such a strong support network and keeps us feeling safe both in our home and on our streets. It gives us a real sense of community and belonging which inevitably impacts our mental well being in a positive way every day. The meaningful connections we feel with others as part of the nunthorpe community really uplifts us and we would be devastated for this to change.

I urge you to leave our house, [REDACTED], inside the nunthorpe ward boundary and to have a second think about the impact made on peoples lives by potentially splitting these communities up.

Thanks for your time,

[REDACTED].
