**Related subject:** Wolds Weighton

The Wolds Weighton Ward is unbalanced because of the number of villages far removed from the town of Market Weighton exerting an influence at elections which is not reflective of the views of the large population of Market Weighton. Residents of rural villages who do not visit, shop or work in the largest town in the ward do not appreciate the problems that need solving nor the infrastructure needs of that town. Many remote villages from Market Weighton decide its requirements although they associate more with Pocklington or Driffield and its needs. This need to change moving the remote villages into wards that encompass the nearest large town not one mile away.
