## Comment text:

i note your rationale:

While we do note the comments made by Oakthorpe, Donisthorpe & Acresford Parish Council, which requested the parish remain undivided across wards, this change improves the forecast electoral variance of -14% for Appleby ward to -10%. We also noted from our visit to the area that the village has good links with the rest of our Appleby ward via the A444.

numerically 26 Households does not make a 4% shift across the ward - i would be grateful to see your method of calculation

Secondly you refer to good links - geographically these are 3 times the distance of the current links to oakthorpe and donisthorpe. The means of such link is the A444, the representation to district and county in relation to the issues and dangers of this road are well documented. the suggestion makes no sense and will be detrimental to the life of villages
