We do believe that the only reason that our council wants to change ward boundaries is so they can allow over development of small villages. The amount of mis conduct that happens in our council is unbelievable and nobody will ever look into it . This is fact. I have tried to get answers from our planning and enforcement departments but have just been told that they have looked into it and everything seems OK. Absolute mis conduct. Please get in touch if you are allowed to . You will not believe what goes on in North east lincs council.
