Related subject: Freshney ward boundary

Ludicrous that the decision would be taken to split the freshney ward without outlining the reasons and obtaining the views of those who live in the freshney ward. The community would be divided if areas like great coates and wybers wood are split into different wards. We have independent wardcouncillors, who we have voted for and work tirelessly for our communities, who would no longer represent the people who elected them. Is this one of the reasons this ward has been put forward alongside the Yarborough ward? The views of the public affected should be caught before any decisions are made.
