Related subject: Freshney

To the typical man in the street, the action to remove the Freshney ward, typically an independent ward, is a politically motivated decision led by the Conservative parties. I am a different Grimsby Ward and have seen nothing of my new labour councillor since his election in May 24. The previous Conservative councillor was excellent, the best and most proactive councillor I have ever experienced but he unfortunately was voted out. My statement is not politically motivated, therefore.

We need independent proactive councillors to ensure wards are truly represented. To remove the Freshney ward where the community needs proactivity is so wrong. There must be an alternative proposal.
