## Comment text:

**Related subject:** Freshney Ward

Freshney Ward should stay as it is, it is being served by 3 independent councillors whom are raising the areas profile and actually supporting the residents. It has a better community feel than any where else that I have lived since relocating to NE Lincs in 2001.

This is a total contrast to East and West Marsh, Scartho, South and Park wards. Where I felt the councillors did not support their residents more focussed on own party political agendas.

I propose that South and Park wards should be merged into a singular unit.
