Related subject: Freshney ward

I would like to protest over the way the proposal for changing the ward boundaries is being handled. I have seen no real information outlining the submission of criteria or the information on local opinion. Freshney ward is a strong community with shared facilities which will be decimated by this proposal. I vote to keep the boundaries as they are. The only reason to push these changes through that I can discern is to use it as an excuse to remove independent opposition . I urge the council to think carefully about this decision as it will cause major upset for many, putting their political future in jeopardy. We need democracy not autocracy.
