## Comment text:

**Related subject:** South ward

I live on the grange and it is the forgotten part of the south ward. Next to nothing investment has happened on this side of the south ward in years, I have been here for 10 years.

There was suppose to be funding for a play area on the grange area but nothing happened. In order to make this area more better we need something for children to do instead of going to other wards to find something to do. Children need something to do in the wards they live in.
