Wednesbury was once an amazing town. Since being taken into the mass Sandwell band it has been neglected and allowed to deteriorate at an alarming rate.

There is a national campaign about obesity. Sandwell council appears to have closed it's eyes & ears to this and continues to allow takeaway food outlets to open in Wednesbury. I walked through the town on Thursday, first time in a while. Majority of shops: fast food outlets, hair dressers/barbers, nail & beauty salons, tattoo, vape, and a selection of charity shops. There is nothing to draw people into the town.

Car parking charges are ridiculously high.

Despite local protests about a large development of flats without parking, in upper high street. The building has mysteriously begun to develop.

The discussion now amongst locals is will it be like the ones that replaced the listed town toilets?

The lack of our own police station is another depressing factor in the modern history of Wednesbury under Sandwell council. Apparently we don't need one as the other 4 towns have them & we can share theirs. Disgusting!

When did Sandwell decide WEDNESBURY doesn't matter?

72 councillors & what exactly do they do? NOT a thing for Wednesbury.
