Basically I am content with my current ward boundary, it has changed little since 1974. However I do have concerns about the structure of Westmorland and Furness which encompasses the former Westmorland and Lancashire North of the Sands. It is large, clumsy, very varied and is already riven by fear and controversy. There is distrust of councillors and council officials. I do not recall the same level of distrust following the last local government reorganisation in 1974.
