Related subject: Arden area and Balsall and Berkswell area

I think that Meriden (east of the A452) should be included in the Balsall and Berkswell ward since it has much more in common with that area rather than the Arden area. For example the Meriden surgery is part of the Balsall Common practice. Children from Meriden go to The Heart of England School in Balsall Common and other links are strong. Meriden has little in common with the Arden area.
