Related subject: Boundary Commission consultation- Olton ward(Scott Road, Fernhill Road and Richmond Road)

I am a proud resident of Olton, living in one of the historic Olton terraced houses on Richmond Road. I was shocked to hear the insulting and derogatory comments about our local area made by our local Conservative Party and the desire to remove us from the Olton ward. We have chosen to live here for the past 25 years and we and our 4 children have thoroughly enjoyed and benefited from the rich Olton community spirit to be found here. All of our 4 children proudly wore their St. Margaret's and Langley uniforms and still feel connected to the schools and St.Margaret's Church and the Olton area. I taught art and music in St. Margaret's school and volunteered as a parent and know firsthand the vital and special relationship the school has with St.Margarets Church and the Olton area. It is a ridiculous proposal to remove Richmond Road and the school from the Olton ward. I have also been surprised at how little information and notice we have been given about this proposal and the lack of opportunity to discuss this with the decision makers. We do not wish you to proceed with this rather ridiculous proposal. Thank you.
