Related subject: Change in Boundaries for Meriden

I have seen the proposed change in boudaries to move Meriden in with a new Arden area.

This does not seem to make sense as the facilities we use (such as GP surgery group) and other local grounds tends to be in Berkswell and Balsall Common.

We are also more of a rural village like Berkswell and Balsall Common.

I am concerned that the issues and views of the rural community won't be best understood compared to if we remain in the same group as Balsall Common and Berkswell so it will be more difficult to meet the needs of the local community.
