## Comment text:

To whom this may concern,

I was appalled to discover council plans to redraw the Olton boundary lines, with total disregard to the feelings of residents in the area soon to be excluded. Attached is my letter of objection to this proposal, which I'm sure is not the first and certainly will not be the last to be written..

Regards,

[REDACTED]

To who it may concern,

I was shocked and disappointed to read of the proposed changes in connection with the Olton ward boundary commission, and particularly of the elitist comments from the Conservative councillors on crossing the canal on Lincoln Road North. These comments are uninformed and completely subjective. The roads under review have objectively always been part of, and connected to Olton, and are far closer to the facilities and amenities in central Olton to those in Lyndon.

In the past, my family and I have considered moving, but have chosen to remain chiefly because of the community centred around the school and church.

Whilst I appreciate the opportunity to comment as part of this consultation period, it is deeply worrying and undemocratic that plans have already advanced, and that the proposed changes were not well advertised – many of my neighbours are completely oblivious to the proposals, and I would have not been made aware if Liberal Democrat councillors had not written.

I have proudly volunteered as a teacher at Olton School over 25 years, volunteered at 1<sup>st</sup> Olton Scout Group, my children were schooled, have worked and have also volunteered in Olton, and we have each invested hugely in, and feel a real sense belonging in Olton.

I urge councillors to reconsider the proposed changes.

Yours faithfully,
