Comment text:

I have just been notified of the proposed amendments to the Olton ward. I fully believe my views will have absolutely no bearing or play any part in your decision sadly but wanted to feedback.

I am unhappy with the proposed change. My postal address and the area I live in is Olton and not Lyndon, therefore feel that I should not be moved to Lyndon ward as the issues there will have no impact on me.

My child also attends St Margaret's School which is linked to St Margaret's church, both are based in Olton but now will be under separate wards with separate councillors, which as they are connected should not be the case.

I also will have councillors representing me that I have not voted for and know nothing about as not all councillors will be in an election when the changes will be made.

This will only affect a fairly small number of houses so can't really see that it would make that much of a difference either.
