Related subject: Rainow

In accordance with the views of Rainow Parish Council I do NOT agree with creating a Bollington and Rainow ward. Whilst geographically close these two areas have totally different issues facing the residents. Rainow is a very rural ward that struggles with peculiarities such as being in the 1% of the country with no mobile signal at all, an issue shared with much of Sutton ward but at all an issue in Bollington! Bollington suffers with population density and lack of parking which is something Rainow thankfully does not struggle with. These two parishes are so very different I do not see how a councillor can adequately represent both parishes at the same time.
