## Comment text:

Hello,

I have looked at the proposed changes to the ward boundaries proposed in the current review of the wards in the Macclesfield borough and, as far as these affect me, I have no issue with the proposals, in fact I would strongly support the changes and believe that I am represented by a fabulous councillor (and still will be under the minor changes proposed).

However, and this isn't the purpose of the consultation, the amalgamation of the previous Macclesfield Borough Council into Cheshire East Council has been a disaster for Macclesfield. Although the last few years have been difficult for all parts of the country, Cheshire East Council's stewardship of the town of Macclesfield has been well below par and it certainly leaves the impression that decisions taken in Sandbach and Crewe give scant regard to the town of Macclesfield.

Please consider any future changes in boundaries / alterations to the local government hierarchy carefully before imposing remote decisions.

Regards, [REDACTED]
