Related subject: Knutsford

I believe the division of Knutsford in two wards is divisive and discriminatory. The perceived split is deliberately aligned to the perceived 'less wealthy' are of Knutsford being split from the wealthier; and arguably an attempt by the relevant political parties to split in such a way as might benefit them, with typical supported of their respective parties.

The resident of the proposed Knutsford North East should have an equal say in the overall scope of commitments across Knutsford. The Town Centre, Moor, Heath, Leisure Centre etc are just some of the amenities for all of Knutsford and it should be a collective view that is represented. Not a deliberate attempt at divisions.
