Related subject: Knutsford

I'm Opposed to the planed segregation of wards in Knutsford, specifically as it aims to separate the council estate area of Knutsford from the rest of the town. Many of the people in this area are born/raised there, where the opposite is likely true outside this area. If the town must be segregated then a less biased form splitting it in two should be observed. This honestly feels discriminatory and I believe would serve only to divide the community
