Related subject: Mendip Central and East

My Division includes the parish of Nunney who will be put into Frome under the proposals. I have asked the parish and their view is that they are not bothered whether they join Frome or not.

Nunney is a rural community and other than a common boundary have no shared identity with Frome and my view is that they should remain outside the 'Frome area' as at present.

It would also make more sense if the recently created LCN boundaries could have been used as a basis for the review. This would minimise the number of Councillors attending various LCN meetings - I believe one LCN has 6 Councillors that will attend - and also strengthen the idea of LCNs and their day to day business. On present performance there is little to recommend the LCN system other than providing overtime working for Somerset staff who have plenty else to do.
