Related subject: Wells

Glastonbury and Street should be part of the Wells grouping as they were before the boundary change. There is constant interaction between those two towns and my city, separating them is a completely counterproductive idea. In Mendip Hills we have very little interaction with the far West areas around Shipham, etc, they are too far away. Somerton is too far from Glastonbury and Street to make sense. The previous boundaries worked much much better. Please return to those.
