Comment text:

Related subject: Chard

Please stop the current councillors from wasting money arguing. I would suggest they are all sacked, with the proven bullies charged with repaying money spent on related legal bills, and we start again.
By joining together some smaller areas, or Chard, Ilminster, Crewkerne budgets could be pooled and money needed for applied for. It would also stop small groups people having a strong hold in the council meetings. Stop wasting money and start working for our community is my overriding statement.
