## Comment text:

Dear all,

Further to previous correspondence I now attach my proposals. I understand that Somerset UA have not as yet submitted one themselves Their subcommittee had a meeting about a week ago in which the draft they had prepared was rejected. As far as I know they have not reached an agreed position yet.

What I have submitted here however is entirely my own, though I have consulted one or two councilors on a few points. In four instances I have felt the need to split polling districts, so figures there are estimates from the information I have available. I have been unable to get 96 exactly to work satisfactorily so have based on 97. I have endeavoured to keep within 10% of mean based on 97 though have exceeded where I consider it makes for better governance. I have noted those instances accordingly in the attachment.

I trust this will be in order.

Yours truly,

[REDACTED]
